

Jennifer Dill

Assistant Professor
School of Urban Studies & Planning
Center for Transportation Studies
Portland State University

Education

- BS, Environmental Policy Analysis & Planning, UC Davis, 1987
- MA, Urban Planning, UCLA, 1989
- Ph.D., City and Regional Planning, UC Berkeley 2001

Professional Experience

- Environmental Planner, Bay Area Air Quality Management District
- Project Manager, Local Government Commission
- Environmental Specialist, US EPA

Interests and Expertise

- Transportation Policy
- Transportation and Land Use
- Travel Behavior
- Air Quality

Goals at PSU

- Create a stimulating educational environment for the next generation of urban and transportation planners
- Conduct research that enlightens policy-making and planning
- Strengthen partnerships within Portland State University and with external partners, including local planning agencies

Research Projects

- Measuring network connectivity for bicycling and walking
- Travel behavior of residents in New Urbanist and transit-oriented neighborhoods
- Understanding and measuring bicycling behavior: Implications for urban planning, health, and research
- Linking connectivity and land use measures to physical activity
- Transportation planning in the Portland region
- Impacts of trip permit limits on vehicle inspections, registration, and emissions
- Impacts of environmental streamlining efforts in Oregon
- Vehicle retirement programs

Research Sponsors

- Oregon Department of Transportation
- Robert Wood Johnson Foundation, Active Living Research
- Federal Highway Administration
- TransNow
- National Cancer Institute
